## Professional

Open to Relocation

I have 3 years experience working as a Flutter Developer, and a background of 4 years experience working as a product designer. My aim is to always build scalable and maintainable software at all times. In my day to day job, I use Flutter to create powerful and transformative apps.

## EXPERIENCE

### Parabeac Inc

Software Engineer - Flutter

Aug 2022 - Present

- I interfaced with company's clients and built apps with flutter.
- Used the Parabeac tool to convert Figma designs into flutter code.
- Worked with Blocs and Cubits to power-up reactive software architecture.
- Led all product efforts on both sides in terms of design to flutter conversion.
- Implemented Clean architecture as a rule of thumbs in all projects.

### MayJuun

Software Engineer - Flutter

Aug 2021 - Aug 2022

- I worked extensively on an app for the **American College of Emergency Physicians (ACEP)**. [Found here](#)
- Led the design and implementation of an internal open [source design system](#).
- Worked with providers and implemented the MVC architecture
- I coordinated the deliverables of an intern along the line.
- Implemented user interface (UI) designs, including wireframes and prototypes.

### Infusync Healthcare

Lead Product Designer

Jan 2021 - Aug 2021

- Collaborated with cross-functional teams to develop user-centered solutions for healthcare products and services.
- Conducted user research and usability testing to gain insights into user needs, behaviors, and pain points.
- Managed design projects from concept to launch and ensured compliance with regulatory and accessibility standards.
- Got promoted to a lead designer role where I had to manage a designer in terms of deliverables and meeting general UI standards.
